(Issued in terms of the Animal Health Act no 1 of 2011)

Authority is hereby granted to:

Name:

Address:

Telephone number in Namibia:

for the importation of:..... Cattle / Sheep
(Number and breed)

into Namibia fromin the Province through
(Farm of origin)

..... for direct slaughter at:
(port of entry) (Abattoir in Namibia)

Subject to the following conditions:

1. The arrival of the consignments must be reported to the State Veterinarian Telephone..... fax.....immediately and the animals may not be landed without his/her authorization.
2. The consignment must be accompanied by this **ORIGINAL** permit. This permit is valid for one consignment only.
3. The health certificate overleaf, consisting of **two pages** must be completed and signed by an authorised veterinary official who should inform the state veterinarian at destination of the dispatch of the animals by fax. Alternatively, an original health certificate on official letterhead of the exporting country must be attached to the Original Import Permit. This health certificate must contain the Namibian Import Permit number and ALL the requirements as stated in the Namibian Veterinary Import Permit.
4. The importer undertakes to brand all the animals with a special mark ~~before~~ before the animals enter Namibia. This mark should be imprinted on the left side of the neck in the case of cattle.
5. The animals must be moved directly to the abovementioned abattoir, and may not be off-loaded anywhere else in Namibia.
6. The animals must be loaded and the truck sealed under official supervision.

Please Note: This permit is issued based on the undertaking by the importer to ensure that ALL conditions above are complied with.

B HEALTH ATTESTATION

I, the undersigned veterinary official authorised thereto by the official veterinary authority of the Republic of South Africa, certify that:

- 1. The animals described in section A:
 - 1.1. Have been resident in South Africa since birth or for a period of at least 3 months.
 - 1.2. Originate from the OIE recognised foot and mouth disease-free zone of South Africa and a farm not under any veterinary restriction for any notifiable disease (including Tuberculosis and Brucellosis) to which the species is susceptible; for at least 30 days prior to export to Namibia .
 - 1.3. Were not vaccinated against foot and mouth disease.
 - 1.4 Females under the age of 18 months have been inoculated with an approved vaccine between the ages of 4 and 8 months (Vaccination date:)
- 2. The Republic of South Africa is free from Rinderpest, East Coast Fever, Vesicular Stomatitis, Scrapie, Contagious Bovine Pleuropneumonia and Bovine Spongiform Encephalitis; according to OIE time frames listed;
- 3. Animals were treated for external parasites within 48 hours before shipment;
- 4. Animals were branded with the mark (—) in compliance with clause 4 of the import permit;
- 5. Animals were inspected within 48 hours of departure by an authorised official, and found to be clinically healthy and fit to travel;
- 6. Animals were loaded and transported in sealed and clean vehicles which are suitable for transport of the species concerned. Sealing of the truck was done under the direct supervision of an official authorised thereto by the South African Veterinary Authorities.
