PUBLIC NOTICE

The Meat Board of Namibia is financed amongst others by levies imposed on the export and import of livestock, domestic transactions as well as slaughtering at local abattoirs based on a standard and transaction value. Where the transaction value cannot be verified, the standard value is applicable. The standard value is updated annually as per Government Notice 139/2012 by calculating actual values achieved during the previous calendar year (in this case year 2014). The standard values calculated for implementation 1 April 2015 to 31 March 2016 are as follows:

Cattle: Live Prices	4553
Sheep : Live/Slaughter Prices	756
